

INDEX

- Aberrant cyclic sedimentation, Stirling, 271
 Ammonites, Liassic, 142
 Appinite, Argyll, 301
 Appinite grading to lamprophyre, 303
 Arran, Kingscross Point, magmatic complex, 194
 Assynt region, mylonites, 79

 Back Settlement, near Kentallen, explosion-breccia, 293
 Bannockburn Main Coal complex, 283
 Basal channels, below breccia beds, 210.
 Belemnites, Liassic, 145
 Belhelvie gabbro, 106
 Blastomylonites, Moine thrust zone, 87
 Bounce-casts, Orthocone, 248
 BOWES, D. R. and A. E. WRIGHT, Explosion-Breccia complex near Kentallen, Argyll, 293
 Boyndie-Buchan folds, relation to basic masses, 105.
 Boyndie Syncline, 95
 Brachiopods, Liassic, 149
 Breccias, terminology, 311

 Carbonation, of cafemic minerals, 307
 Carstairs, ridge system, 188
 Cataclasites, Moine thrust zone, 89
 Cave pearls, Manuel, Linlithgow, 221
Carusgnathus inflexa sp. nov., 23
 CHRISTIE, J. M., Mylonite Rocks, Moine Thrust Zone, Assynt Region, 79
 CLARKE, W. J., Scottish Carboniferous Conodonts, 1
 Clast lineation, in sandstone, 211
 CONCHAR, J. and W. MANSON, Cave Pearls, Manuel Fireclay Mine, Linlithgow, 221
 Conodonts, Scottish Carboniferous, 1
 Cowhythe Gneiss, 95
 Creassing and clastic deposition, 289
 Cross stratification, Jurassic, Sutherland, 213

 CROWELL, John C., Depositional Structures, Jurassic Boulder Beds, East Sutherland, 202
 Cyclic sequences, Carboniferous, Stirling, 274
 Cyclothems, Liassic, N.W. Europe, 133

 Dalradian structures, N.E. Scotland, 94
 Depositional structures, Jurassic, Sutherland, 206
 Differential compaction and irregular local subsidence, 288
 Differential subsidence and cyclic sedimentation, 287
 Dykes, north-easterly, Ballater, Aberdeenshire, 230

 East Fife, intrusive tuffs, 41
 East Lothian, intrusive tuffs, 44
 Eskers, Tinto Hills, Lanarkshire, 177
Euprioniodina glencartensis, sp. nov., 5
 Explosion-Breccia, formation of, 307
 Explosion-Breccia, Kentallan, Argyll, 293

 Facies analysis, Limestone Coal Group, Stirling, 281
 Faunal changes in Lias, N.W. Europe, 124
 Fold periods, Moidart, 315
 Folding, episodes, Central Perthshire, 51
 Folds in breccia beds, 209
 Foraminifera, Liassic, 150
 FRANCIS, E. H., Intrusive Tuffs, Firth of Forth Volcanoes, 32

 Gabbros, N.E. Scotland, structural problems, 104
 Garnets with helicitic textures, Central Perthshire, 53
 Garnets with helicitic textures, Moine rocks, Moidart, 315
 Garnets with inclusion trails, Moidart, 316
 Gas-fluxion, emplacement of tuffs by, 46
 Gas-streaming and formation of breccias, 308

- Gastropods, Liassic, 149
 Glacial deposits, St. Fort, N.E. Fife, 113
 Glacial drainage forms, Tinto Hills, Lanarkshire, 177
 Glenbuck Group, Silurian, Lanarkshire, 255
 Glen Gairn dykes, and Lochnagar Swarm, 238
Gnathodus clavatus sp. nov., 25
Gnathodus cruciformis sp. nov., 25
Gnathodus smithi, sp. nov., 26
- Hagshaw Group, Silurian, Lanarkshire, 242
 Hagshaw Hills, Lanark, Silurian inlier, 240
 HALLAM, A., Cyclothems, Transgressions and Faunal Change, Lias, N.W. Europe, 124
 Hareshaw Conglomerate, Silurian, Lanarkshire, 261
 HARRIS, A. L. and N. RAST, Quartz Fabrics, Central Perthshire, 51
 Helicitic textures in garnets, 53, 315
Hindeodella sp. nov.?, 7
Hindeodella tenuis sp. nov., 8
 HOWKINS, J. B., Helicitic Textures in Garnets, Moine Rocks, Moidart, 315
 Huntly gabbro, 106
 Huntly-Tarves Antiform, 101
- Insch gabbro, 107
 Intrusive tuffs, Firth of Forth area, 32
- JOHNSON, M. R. W. and F. H. STEWART, Dalradian Structures in N.E. Scotland, 94
 JOHNSTONE, M. R. W. and F. H. STEWART, Structural Problems of Younger Gabbros, N.E. Scotland, 104
- Kakirites, Moine Thrust Zone, 89
 Kames, St. Fort Area, N.E. Fife, 117, 120
 Kingscross Point, Arran, magmatic complex, 194
- Lake Clyde, Tinto area, Lanarkshire, 188
 Lamprophyre, Argyll, 302
- Lias, N.W. Europe, 124
 Liassic stratigraphical units, Britain, 159
 Liassic stratigraphical units, France and Germany, 166
 Liassic successions, Britain, 138
 Liassic successions, N.E. France and S.W. Germany, 138
Ligonodina complectens sp. nov., 9
Ligonodina craigi sp. nov., 10
Ligonodina loisae sp. nov., 11
Ligonodina ultima sp. nov., 12
 Lithofacies, Carboniferous, Stirling, 285
 Llandoverian, Upper, Hagshaw Hills, Lanarkshire, 262
 LONGSTAFF, Margaret and S. I. TOMKIEFF, Magmatic Complex, Kingscross Point, Arran, 194
- MANSON, W. and J. CONCHAR, Cave Pearls, Manuel Fireclay Mine, Linlithgow, 221
 Manuel Fireclay Mine, cave pearls, 221
Metalonchodina conflecta sp. nov., 17
 Microdiorite, Glen Gairn, Aberdeen, 230
 Microfabrics of quartz inclusions in garnets, 320
 Migmatization, and fold periods, Moidart, 316
 Mimetic mineral growth and tectonic structures, 53
 Modal analyses, crinanite, olivine basalt and olivine dolerite, 197
 Moine Thrust Zone, Assynt Region, 79
 Mylonitic rocks, Assynt Region, 85
 Mylonitic rocks, terminology, 80, 88
- Necks, events leading to emplacement, 48
 Neocrystalline mineral growth, 53
Neoprioniodus brevis sp. nov., 13
 North-easterly dykes, older than Glen Gairn Granite, 237
- Oolites, Manuel Fireclay Mine, Linlithgow, 225
 Orientation of directional structures, Jurassic, Sutherland, 213

- Orientation of elongate blocks, Jurassic, Sutherland, 209
- Orientation of tabular blocks, Jurassic, Sutherland, 209
- Orthocone bounce-casts, Silurian, Lanarkshire, 248
- Ostracods, Liassic, 150
- Ozarkodina hindei* sp. nov., 18
- Palaeogeography, Liassic, N.W. Europe, 127
- Parishholm Conglomerate, Silurian, Lanarkshire, 255
- Parting lineation, in sandstone beds, 212
- Pelecypods, Liassic, 145
- Phyllonites, Moine Thrust zone, 89
- Pisolites, Manuel Fireclay Mine, 225
- Polygnathodella tenuis* sp. nov., 28
- Polygonisation and recrystallisation, 74
- Polymetamorphism, evidence of, in Moidart, 324
- Quarry Arenite, Silurian, Lanarkshire, 261
- Quartz, response to regional metamorphism, 54, 66
- Quartz fabrics, Central Perthshire, 51
- Quartz petrofabrics, correlation with field observations, 53
- RAST, N. and A. L. HARRIS, Quartz Fabrics, Central Perthshire, 51
- READ, W. A., Cyclic Sedimentation, Stirling Coalfield, 271
- Rheomorphic basalt, intruded into crinanite, 200
- RICE, R. J., Glacial Deposits, St. Fort, N.E. Fife, 113
- Ripplemarks, Jurassic, 212
- ROLFE, W. D. Ian, Geology of Hagshaw Hills, 240
- St. Fort area, N.E. Fife, glacial deposits, 113
- Sand plateaus, St. Fort area, 118, 121
- Sedimentary environments, Jurassic 128
- Siltstone-arenite ratios, Silurian, Hagshaw Hills, 246
- Silurian stratigraphy, Hagshaw Hills, 242
- SISSONS, J. B., Subglacial Drainage System, Tinto Hills, Lanarkshire, 175
- Spathognathodus exodentatus* sp. nov., 19
- Spathognathodus pusillus* sp. nov., 20
- Splitting of coal seams, 277
- STEWART, F. H. and M. R. W. JOHNSON, Dalradian Structures in N.E. Scotland, 94
- STEWART, F. H. and M. R. W. JOHNSON, Structural Problem of Younger Gabbros, N.E. Scotland, 104
- Stirling Coalfield, cyclic sedimentation, 271
- Streptognathodus parallelus* sp. nov., 29
- Subbryantodus planidorsalis* sp. nov., 22
- Subglacial drainage system, Tinto Hills, 175
- Subjacent folds, below breccia beds, 209
- Syntectonic garnets and fold periods, 54
- Thankerton kame, Lanarkshire, 184
- Tinto Hills, subglacial drainage system, 187
- TOCHER, F. E., Microdiorite dykes, Glen Gairn, Aberdeen, 230
- TOMKEIEFF, S. I. and Margaret LONGSTAFF, Magmatic Complex, Kingscross Point, Arran, 194
- Transgressions in Lias, N.W. Europe, 137
- Tuffs, emplacement by gas-fluxion, 46
- Tuffs, intrusive, Firth of Forth area, 32
- Under-surface structure, Silurian, Hagshaw Hills, 247
- Valentian, Hagshaw Hills, 265
- West Lothian, Intrusive Tuffs, 42
- WRIGHT, A. E. and D. R. BOWEN, Explosion-Breccia Complex at Back Settlement, near Kentallen, Argyll, 293
