

INDEX.

- Agassiz, Professor, Obituary Notice of (Ralph Richardson), 285.
- Airdrie Blackband Ironstones, On Fossil cones from the (Geo. A. Panton), 307.
- Alexander, H. F., On the Origin of Laterite or *Cabook* of Ceylon, 113.
- Antiquity of the Earth, On the Probability of our successfully calculating the (Andrew Taylor), 402.
- Arthur's Seat, On a Mass of Contorted Sandstone in the Hunter's Bog (Geo. Lyon), 125.
- On the Discovery of an *Estheria* in Camstone Quarry (Charles W. Peach, A.L.S.), 82.
- Bartholomew, Rev. George, Obituary Notice of (Geo. A. Panton), 102.
- Bathgate, On one of the Sandhills near (James Linn), 33.
- List of Fossils from the Limestone of (James Linn), 82.
- On Some of the Less Common Fossils of (James Linn), 192.
- Bathgate Hills, Suggestions for the Study of the Chemical Geology of the (Andrew Taylor), 73.
- Beer, Devonshire, On Quarries at, and some of their Fossils (William Linford), 181.
- On the Industrial Value of the Building Stone of (William Linford), 190.
- Benholm, Kincardineshire, On Blocks and Boulders on Seaboard of (Rev. A. S. Myers), 141.
- Blackford Hill, On a Striated and Water-worn Cliff at (Geo. A. Panton), 238.
- Brora, Sutherlandshire, On the Coal-field of (William Payne), 368.
- Brown, Robert, M.A., Ph.D., F.I.S., F.R.G.S., On an Upheaval of Land near Novai Zembla, 191.
- Brown, David J., *Councillor*, On the Silurian Rocks of the South of Scotland. Part I. Moffat and Gala Beds, 227. Part II. Llandoverly Rocks, 316. Part III. Wenlock and Ludlow Rocks, 377.
- Brown, D. J., On Glacial Phenomena in the Neighbourhood of Edinburgh, 351.
- On a New Theory of the Formation of Till or Boulder Clay, 383.
- Budleigh Salterton Pebbles, On the (Wm. Linford), 67.
- Budleigh Salterton Pebbles, Notes on the (Chas. W. Peach, A.L.S.), 79.
- Burdiehouse Limestone, On the Discovery of *Spirorbis carbonarius* in the (Chas. W. Peach, A.L.S.), 82.
- On a Section of, and connected Strata in Grange Quarry, Burntisland (R. Etheridge, jun., F.G.S.), 273.
- Cadell, Henry, of Grange, *Vice-President*, Notice of the Geological Features of the Upper Coal Basin of the Firth of Forth, 39.
- Ceylon, On the Laterite or *Cabook* of (H. F. Alexander), 113.
- Corstorphine Hill, On (John Henderson), 29.
- *Lepidodendron* with Cones attached, On a, from (George Lyon), 81.
- Coniston Limestone of Cumberland and Westmoreland and its associated Rocks, On the (Professor Alleyne Nicolson, M.D., D.Sc.), 84.
- Connorree Copper and Sulphur Mine, County Wicklow, On the (David Marshall), 232.
- Coal, On the Conversion of, into Graphite during an Explosion in a Lancashire Coal-pit (Andrew Taylor), 368.
- Remarks on the Formation of (John Galletly), 395.
- Coals and Peat Fuels, Chemical Analyses of various (Andrew Taylor), 371.
- Craigleith Quarry, On a New Fossil Tree from (George Lyon), 219.
- Davidson, Thomas, F.R.S., F.G.S., On the Importance of the Study of Paleontology, 184.
- Drylaw, East Lothian, On a Striated Boulder found at (D. Milne Home, LL.D.), 350.
- Edinburgh, On Shell Marl at the Meadows (R. Etheridge, jun., F.G.S.), 223.

- Edinburgh, On Fossils from South Side of (John Henderson), 138.
- On the Geology of (Geo. Lyon)—
Part I. Igneous Rocks, 201.
Part II. Aqueous Rocks, 209.
- Note of Borings for Foundation of new Episcopal Cathedral, West End (Ralph Richardson), 224.
- Notice of Stratification underlying the Site of the Old Darien House (R. Thornton Shiells), 132.
- On the superficial Geology of the Northern District of (Andrew Taylor), 77.
- On Sections made by Drainage Operations at the South Side of, illustrative of the Structure of Salisbury Crags (Andrew Taylor), 83.
- On Glacial Phenomena in the neighbourhood of Edinburgh, (D. J. Brown), 351.
- On Glacial Phenomena at Tynecastle, and at the Pentland Hills (John Henderson), 360.
- Etheridge, jun., Robert, F.G.S., *Councillor*, Note on the Shell-marl of the Alluvial Deposit of the Meadows, Edinburgh, 223.
- On the Occurrence of Foraminifera in the Carboniferous Limestone of the East of Scotland, 225.
- Description of a Section of the Burdiehouse Limestone and connected Strata in Grange Quarry, Burntisland, 273.
- Notice of additional Fossils from the Upper-Silurian Series of the Pentland Hills, 309.
- On the Remains of *Pterygotus* and other Crustacea from the Upper Silurian Series of the Pentland Hills, 314.
- Fife, On a New Species of *Amblypterus* and other Fossil Fish Remains from Pitcorchie (Robert Walker), 119.
- Forth, Firth of, On the Upper Coal Basin of (H. Cadell), 39.
- Foraminifera in Carboniferous Limestone of East of Scotland, On (R. Etheridge, jun., F.G.S.), 225.
- Galashiels, On the Lower Silurian Rocks of (Charles Lapworth, F.G.S.), 46.
- Galletly, John, On an Analysis of a *Lepidodendroid* Plant in Shale from West Calder, with Remarks on the Formation of Coal, 395.
- Geikie, Professor, LL.D., F.R.S., F.G.S., *President*, Opening Address, Session 1869-70, 1.
- Geikie, Professor, LL.D., F.R.S., F.G.S., Notes for a Comparison of the Volcanic Geology of Central Scotland with that of Auvergne and the Eifel, 21.
- On Earth Sculpture, or the Huttonian School of Geology, Opening Address, Session 1873-74, 247.
- Professor, LL.D., F.R.S., F.G.S., *President*, On some Points in the connection between Metamorphism and Volcanic Action, 287.
- Geological Topics, On Current (Andrew Taylor), 242.
- Glen Spean, On the Glaciers of, and their relations to Glen Roy (W. Jolly), 220.
- Goldfields of Forfarshire, On the (Dr Lauder Lindsay), 27.
- Goodall, Thomas, of Craigderran, Obituary Notice of (George A. Panton), 103.
- Grossart, William, Note on a Species of *Conifer* from the Carboniferous Sandstone of Shotts, Lanarkshire, 81.
- Haswell, James, M.A., W.S., *Vice-President*, On the Old Estuarine Beds of the Carse of Stirling, 58.
- Obituary Notice of (Geo. A. Panton), 207.
- Huttonian School of Geology, On the (Prof. Geikie, F.R.S.), 247.
- Hawthornden, On River-erosion exhibited by the Esk at (Ralph Richardson), 313.
- Habbie's Howe, Logan Burn, On Fossils from the Conglomerate at (John Henderson), 339.
- Note on the Graptolites discovered by Mr Henderson in the Silurian Shales of (Charles Lapworth, F.G.S.), 375.
- Hairmyres, near East Kilbride, Lanarkshire, Notes on Carboniferous Polyzoa from Shales at (John Young), 400.
- Henderson, John, *Curator of Museum*, On Corstorphine Hill, near Edinburgh, 29.
- On Fossils found in the Rocks underlying the South Side of Edinburgh, 138.
- On a Fault in the Carboniferous Rocks on the Water of Leith above Currie, with Observations on the Geology of the District, 144.
- On the Evidence of the Existence of an Old River Course previous to the Deposition of the Boulder Clay at the Water of Leith above Colinton, 196.
- On Glacial Phenomena in the Pentland Hills, and at Tynecastle, Edinburgh, 360.

- Henderson, John, On some Silurian Fossils from the Pentland Hills, 373.
 — On Fossils from the Conglomerate at Habbie's Howe, Logan Burn, 389.
 — On some Sections of Boulder Clay, Peat, and Stratified Beds recently exposed at a new Quarry at Redhall, 391.
- Horne, John, F.G.S., A Sketch of the Geology of the Isle of Man, 323.
- Jolly, William, Notes on the Glaciers of Glen Spean and their Relations to Glen Roy, 220.
- Jones, Professor Rupert, F.R.S., F.G.S., Notes on some new Forms of Bivalve Entomostraca from the Silurian Rocks of Peeblesshire, 321.
- Lapworth, Charles, F.G.S., On the Lower Silurian Rocks in the neighbourhood of Galashiels, 46.
 — Note on the Graptolites discovered by Mr John Henderson in the Silurian Shales of Habbie's Howe, Pentland Hills, 375.
- Lepidodendroid* Plant in Shale, On the Analysis of a (John Galletly), 395.
- Linford, William, *Associate*, On the Budleigh Salterton Pebbles, 67.
 — On Quarries at Beer, in Devonshire, and some of their Fossils, 181.
 — On the Industrial Value of the Building Stone from the Beer Quarries, 190.
- Lindsay, Dr Lauder, *Associate*, On the Goldfields of Forfarshire, 27.
- Linn, James, Notes on one of the Bathgate Sandhills, 33.
 — List of Fossils from the Bathgate Limestone, 82.
 — On some less common Bathgate Fossils, 192.
- Lyon, George, *Treasurer*, Notes on *Potrioceras pyriforme* from the Carboniferous Limestone of Lanarkshire, 15.
 — Notice of Specimen of *Lepidodendron* with Cones attached, from Corstorphine Hill, Edinburgh, 81.
 — On a mass of contorted Sandstone in the Hunter's Bog, Arthur's Seat, 125.
 — On a new Species of *Rhizodus*, 125.
 — On the Geology of Edinburgh—
 I. Igneous Rocks, 201.
 II. Aqueous Rocks, 209.
 — On the Discovery of a new Fossil Tree in Craigeleith Quarry, Edinburgh, 219.
- Lyon, George, Annual Abstract of Accounts, 14, 104, 129, 176, and 272.
- Man, Isle of, A Sketch of the Geology of the (John Horne, F.G.S.), 323.
- Marshall, David, Notes on a visit to the Connorree Copper and Sulphur Mine, County Wicklow, Ireland, 282.
- Melrose, On Specimens of *Holoptychius nobilissimus*, from the Black Hill near (C. W. Peach, A.L.S.), 400.
- Metamorphism and Volcanic Action, On the connection between (Prof. Geikie, F.R.S.), 287.
- Milne Home, David, LL.D., F.G.S., *Vice-President*, On the Post Pliocene Geology of Scotland, Opening Address, Session 1872-73, 149.
 — Notice of a Striated Boulder lately found in a Sandpit at Tyne-castle, near Edinburgh, 347.
 — Notice of a Striated Boulder found at Drylaw, near Linton, East Lothian, 350.
- Mossman, Samuel, On the Chromate of Iron, Serpentine, and other Minerals of the Shetland Isles, 78.
- Murchison, Sir Roderick I., Bart., K.C.B., F.R.S., *Patron*, Observations on the Structure of the North-West Highlands, 18.
 — Obituary Notice of (Ralph Richardson), 127.
- Myers, Rev. Alexander Smart, On Blocks and Boulders lying loose on and imbedded in the rocks which form the Seaboard of Benholm Parish, Kincardineshire, between high and low water marks, 141.
- Maclaren, Charles, F.G.S., Presentation to Society of Bust of, 13.
- M'Lagan, Peter, of Pumpherston, M.P., Remarks on Oil Shales, &c., 188.
- Newpark, On a Sandbed occurring in Boulder Clay at, in the parish of Mid-Calder (Ralph Richardson), 24.
- Nicholson, Prof. Alleyne, M.D., D.Sc., F.G.S., *Vice-President*, On the Coniston Limestone of Cumberland and Westmoreland and its associated Rocks, 84.
 — On the Correlation of the Silurian Deposits of the north of England with those of the south of Scotland, 105.
 — On the Law of Succession in Palæontology, 215.
- North Berwick Coast, On the Volcanic Rocks and collateral Phenomena of the (Ralph Richardson), 177.
- Novai Zembla, Upheaval of Land near (Dr Robert Brown), 191.

- Office-Bearers for Session 1869-70, Election of, 13.
- Session 1870-71, Election of, 108.
- Session 1871-72, Election of, 128.
- Session 1872-73, Election of, 175.
- Session 1873-74, Election of, 270.
- Oil Shales, &c., Remarks on (P. M' Lagan, M.P.), 188.
- Bitumens and Oil-coals, On (Andrew Taylor), 187.
- Paleontological Committee, Lothians and Fife, Appointment of, 186.
- First Report of, Session 1873-74, 269.
- Paleontology, Importance of, On the (Thomas Davidson, F.R.S.), 184.
- On the Law of Succession in (Prof. Alleyne Nicholson, M.D., D.Sc.) 215.
- Panton, George A., *Honorary Secretary*, Report for Session 1869-70, 95.
- *Librarian*, Obituary Notice of James Haswell, M.A., W.S., *Vice-President*, 207.
- Note on a Striated and Water-worn Cliff, &c., at Blackford Hill, Edinburgh, 238.
- Note on Fossil Cones from the Airdrie Blackband Ironstones, 307.
- Payne, William, On the Coalfield of Brora, Sutherlandshire, 368.
- Peach, Charles W., A.L.S., *Associate*, Notes on the Pebbles of Budleigh Salterton, 79.
- On the Discovery of *Spirorbis carbonarius* in the Limestone of Burdiehouse, and of an *Estheria* in Camstone Quarry, Arthur's Seat, 82.
- On Specimens of *Holoplychius nobilissimus* from the Blackhill, near Melrose, 400.
- Peat as a Substitute for Coal, On (Ralph Richardson), 205.
- Peat-Industry, Dutch, Notes on the (Ralph Richardson), 276.
- Peat-Fuels, Chemical Analysis of various Coals and (Andrew Taylor), 371.
- Peebles, On a large Quartz Boulder called "The White Stone," in the town of (Ralph Richardson), 397.
- Peeblesshire, On new forms of Bivalve *Entomostraca* from the Silurian Rocks of (Prof. Rupert Jones, F.R.S.), 321.
- Pentland Hills, Additional Fossils from Upper Silurian Series of (R. Etheridge, jun., F.G.S.), 309.
- On Remains of Pterygotus and other Crustacea, from Upper Silurian Series of (R. Etheridge, jun., F.G.S.), 314.
- On Glacial Phenomena in the (John Henderson), 360.
- Pentland Hills, On some Silurian Fossils from the (John Henderson), 373.
- Post Pliocene Geology of Scotland, On the (D. Milne Home, LL.D., F.G.S.), 149.
- Poterioceras pyriforme*, from Carboniferous Limestone of Lanarkshire (George Lyon), 15.
- Redhall, Quarry at, On some Sections of Boulder Clay, Peat, and Stratified Beds at a new (John Henderson), 391.
- Rhizodus*, On a new Species of (George Lyon), 125.
- Richardson, Ralph, W.S., *Librarian*, Report for Session 1870-71, 127.
- *Honorary Secretary*, Notice of Sandbed occurring in Boulder Clay at Newpark, in the parish of Mid-Calder, 24.
- Obituary Notice of Sir Roderick I. Murchison, Bart., 127.
- On the Volcanic Rocks and Collateral Phenomena of the North Berwick Coast, 177.
- On Peat as a substitute for Coal, 205.
- Note of Borings for the foundation of the new Episcopal Cathedral, Edinburgh, 224.
- Secretary's Report for Session 1872-73, 268.
- Notes on Dutch Peat Industry, 276.
- Obituary Notice of Prof. Agassiz, 285.
- On River Denudation, with Observations on the Courses of the Esk, at Hawthornden, the Murieston Water, Midcalder, &c., 313.
- Notice of a Section in the Building Excavations at Tynecastle, Edinburgh, 358.
- Notice of a large Quartz Boulder called "The White Stone," in the town of Peebles, 397.
- Salisbury Crags, Physical Structure of, illustrated by Sections, in south side of Edinburgh, On the (Andrew Taylor), 83.
- Sars, Professor Michael, Obituary Notice of (T. Gwyn Jeffreys, F.R.S.), 100.
- Sanguinolites iridimoides*, Occurrence of, in the Carboniferous Limestone of Middleton (A. Somervail), 130.
- Silurian Rocks of South of Scotland, On the (D. J. Brown), 227, 316, 377.
- Silurian Deposits of north of England, Correlation of, with those of south of Scotland (Prof. Alleyne Nicholson, M.D., D.Sc.), 105.

- Shotts, Lanarkshire, Conifer from Carboniferous Sandstone of, On a (Wm. Grossart), 81.
- Shetland Isles, On the Chromate of Iron, Serpentine, and other Minerals of the (Samuel Mossman), 78.
- Shiells, R. Thornton, *Councillor*, Notice of Stratification underlying the site of the old Darien House, Edinburgh, 132.
- Somervail, Alexander, On the occurrence of *Sanguinolites iridinoides* in the Carboniferous Limestone of Middleton, 130.
- Somervail, Alexander, On the occurrence of *Spirifer ovalis* in the Carboniferous Limestone of Mid-Lothian, 131.
- On the occurrence of *Strepsodus* and *Rhizodopsis* in the Upper Coal Measures of Edmonstone, Mid-Lothian, 137.
- Report as Convener of the Society's Lothians and Fife Paleontological Committee, Session 1872-73, 269.
- Spirifer ovalis*, Occurrence of, in the Carboniferous Limestone of Mid-Lothian (Alexander Somervail), 131.
- Stirling, Carse of, On the Old Estuarine Beds of, (James Haswell, M.A.), 58.
- Strepsodus* and *Rhizodopsis*, Occurrence of, in the Upper Coal Measures of Edmonstone, Mid-Lothian (Alexander Somervail), 137.
- Taylor, Andrew, *Associate*, Suggestions for the Study of the Chemical Geology of the Bathgate Hills, 73.
- On unpublished Sections illustrating the Superficial Geology of the Northern District of Edinburgh, and the immediate neighbourhood, 77.
- On Sections made by the Drainage operations at the south side of Edinburgh, illustrative of the Physical Structure of Salisbury Crags, 83.
- On Bitumens, Oil Shales, and Oil Coals, 187.
- Taylor, Andrew, *Associate*, On Current Geological Topics. Closing Address, Session 1872-73, 242.
- Notice of Coal being converted into Graphite during an explosion in a Lancashire Coal-pit, 368.
- Chemical Notes of Analyses of various Coals and Peat Fuels, 371.
- On the probability of our successfully calculating the Antiquity of the Earth: Closing Address, Session 1873-74, 402.
- Till or Boulder Clay, On a new Theory of the Formation of (D. J. Brown), 383.
- Treasurer's Abstract for Session 1868-69, 14.
- for Session 1869-70, 104.
- for Session 1870-71, 129.
- for Session 1871-72, 176.
- for Session 1872-73, 272.
- Tynecastle Sandpit, Edinburgh, Notice of a Section at (Ralph Richardson), 358.
- On a large Striated Boulder in (D. Milne Home, LL.D.), 347.
- On Glacial Phenomena at (John Henderson), 366.
- Walker, Robert, On a new Species of *Amblypterus* and other Fossil Fish remains from Pitcorthie, Fife, 119.
- Water of Leith, On a Fault in Carboniferous Rocks on, above Currie (John Henderson), 144.
- On the evidence of an old Water-course near, above Colinton (John Henderson), 196.
- West Calder, On a *Lepidodendroid* Plant in Shale, from (John Galletly), 395.
- Volcanic Geology of Central Scotland, On the (Prof. Geikie, F.R.S.), 21.
- Young John, *Associate*, Notes on Carboniferous Polyzoa from Fossiliferous Shales at Hairmyres, near East Kilbride, Lanarkshire, 400.
