# CONTENTS

Mr Ralph Richardson's Obituary Notice of Mr Lyon, 1
Mr Henry Moubray Cadell on the Surface Geology of the Forth round Borrowstounness, 2
Mr John Henderson on the Description of a Bore Section at Abbeyhill, 34
Mr Thomas Stock on the Discovery of a nearly entire Specimen of Rhizodus, 35
Mr Thomas D. Wallace on recent Geological Changes on the Moray Firth, 43
Mr James Fraser on recent Formations and Glacial Phenomena of Strathnairn, 53
Dr Robert Romanis on the Geology of Maulmain, 67
Mr Milne-Home on Geology of Carstairs, Beattock, Moffat, and Loch Skene, 69
Mr Thomas Stock on Natural History Collections on the Continent, 75
Mr John Young on the Genera of Gastropod Mollusca from the Carboniferous Limestone Series of the Central and Western Coalfields of Scotland, 85
Mr W. Ivison Macadam on a Clay-Shell Bed at Tigh-na-erichie, Argyllshire, 94
Mr W. Ivison Macadam on Veins of Specular Iron Ore at Strachur, Argyllshire, 95
Mr Stock on the Occurrence of Anthrapalaemon Etheridgii, 97
Mr David Cameron on the Granite, and the Junction of the Old Red Sandstone and Gneiss in Lower Strathnairn, 98
Mr W. Ivison Macadam on the Chemical Composition of certain Limestone Beds at Ballimore, Argyllshire, 101
Mr Milne-Home's Valedictory Address for Session 1880-81, 104
Excursion to Bathgate District, 116
Excursion to Inchkeith, 117
Excursion to Camps Limestone Quarries, 118
Mr Milne-Home's Inaugural Address for Session 1881-82, 119
Mr James Fraser on a Clay-Shell Bed at Clava, 136
Mr T. D. Wallace on Shells in Glacial Clay at Fort George, 143
Mr Wm. Ferguson on a Sand Covered District on the East Coast of Aberdeenshire, 145
Mr G. H. Kinahan on the Irish portion of Dr A. Geikie's Lake Caledonia Basin, 152
Mr David Cameron on the Glaciers of Lower Strathnairn, 160
Mr David Cameron on Fossiliferous Strata, Lower Strathnairn, 163
Dr R. Romanis on the Analysis of Laterite, 164
Mr W. Ivison Macadam on the Analyses of Labuan and New Zealand Coals, 165
Mr J. Coutts Crawford on the Geological Formations of New Zealand, 167
iv CONTENTS.

Mr WM. R. M'DIARMID on the Geology of the North East Coast of Norfolk, ........................................... 171
Mr DAVID CAMERON on the Glacial Phenomena of Athole, ................................................................. 174
Mr W. IVISON MACADAM on a New Variety of Saponite, ................................................................. 178
Mr RALPH RICHARDSON on Arctic Shells in High Levels in Scotland, ......................................... 179
Mr W. HAMILTON BELL on the Geological Formations round Ballater, ........................................ 201
Mr W. IVISON MACADAM on the Analysis of a “White Deposit” from Aberdeenshire, .................. 207
Mr JOHN HENDERSON on Marine Beds underlying the Gilmerton Limestones, .............................. 217
Mr THOMAS STOCK on Decapod Crustaceans in the Wardie Shales, ................................................. 219
Mr H. M. CADELL on the Surface Geology of the Forth (additional note), .................................... 220
Mr H. M. CADELL on the Glaciation of Scotland and Norway, ............................................................. 227
Mr W. IVISON MACADAM on a Clay-Shell Bed at Tigh-na-cruche (additional note), .................... 232
Mr ALEX. SOMERVAIL on the Origin and Age of Quartz Veins near Falmouth, ................................. 238
Excursions, ............................................................................................................................................. 237
Meeting of Northern Scientific Societies at Inverness, ................................................................. 242
Inaugural Address by RALPH RICHARDSON, W.S., F.R.S.E., Vice-President. Subject—“Agassiz and Glacial Geology,” ........................................... 245
Mr JOHN HENDERSON on Sections exposed in cutting the Suburban Railway, .............................. 262
Mr DAVID CAMERON on the Submergence of Scotland, ............................................................... 263
Mr THOMAS D. WALLACE on Geology of Enzie, ................................................................................. 269
Mr THOMAS D. WALLACE on Structural Geology of Glen-More-nan-Alban, .................................. 271
Mr THOMAS D. WALLACE on Old Red Sandstone of Strathnairn, ..................................................... 275
Mr R. T. OMOND on River Erosion in Switzerland, ........................................................................... 276
Mr W. IVISON MACADAM on a Diatomaceous Deposit from the Peat of Kinnord, Ordie, Drum, and Black Moss, Aberdeenshire, and Leves, .......................................................... 277
Mr G. H. KINAHAN on the Nomenclature of Rocks, ............................................................................ 284
Mr W. HAMILTON BELL on the Geology of Easter Ross, ................................................................. 289
Messrs W. TAIT KINNEAR and W. ANDERSON on the Fossils of the first Gilmerton Limestones, ................................................................................................................................. 290
Mr WM. MORRISON on Albertite in the Shales of Strathpeffer, ....................................................... 307
Mr RALPH RICHARDSON on Columnar Basalt at Ladeddie Hill, Fife, .......................................... 311
Mr ANDREW TAYLOR on Boulders exposed at the New Cemetery, Easter Road, ......................... 317
Mr H. M. CADELL on Fossiliferous Rocks of the Borrowstounness Coalfield, ............................... 319
Mr R. T. OMOND on the Asymptotic Nature of Natural Selection, ................................................. 338
Mr G. H. KINAHAN on Notes on the Cervus Megaceros, ................................................................. 343
Mr JOHN HENDERSON on Calcareous Deposits at Starleyburn, ...................................................... 346
Roll of Members of the Society, ............................................................................................................... Appendix
Learned Societies and Institutions in Correspondence with the Society, ........................................ Appendix
